Storia

DIELLE SRL - MADE IN ITALY SINCE 1980

Dielle was founded in 1980 in Milan, on Via Riccardo Galli, on the initiative of Giuseppe Di Luca, with one clear goal: to bring to the professional market tools of the highest quality, designed for the stylist, not the end consumer.

Today Dielle is still a family-run company, where every decision is made with the same care as on day one.

“I have always believed that a great tool in the right hands can make the difference between good work and a work of art.”

GIUSEPPE DI LUCA — FOUNDER

INOVAFIX

#2000

Inovafix Hairdryer Evolution: The future of styling is here. The world's first professional hairdryer that draws in heat to lock in the style. A perfect blow-dry, healthier hair and lasting results never seen before.

Created by professionals for professionals (and for those who won't compromise at home), Inovafix completely reinvents the concept of drying.

Thanks to its exclusive heat-extraction technology, it locks in the style in seconds, sealing the hair cuticle.

The result? A flawless blow-dry that lasts, visibly shinier hair and zero heat stress. This is no ordinary hairdryer.

It's a concentration of power, lightness and quiet operation, controlled by an advanced digital display with 8 airflow and heat combinations to adapt drying to any hair type.

Digital Display and Control: 8 precise speed and heat settings for maximum treatment customization.

Lightweight, Ergonomic Design: Designed for extended salon use, it reduces joint strain without sacrificing power.

Quiet and Powerful: Maximum motor efficiency with noise kept to an absolute minimum. Guaranteed quality materials, reliable circuitry and design refined down to the smallest detail.

Why choose Inovafix Evolution? Heat-Extraction Technology: The exclusive patented system that locks in the style in seconds without damaging the hair fiber.
